YOUR MEMBERSHIP: PRICELESS

When you renew your membership with CMA, you hire a powerful professional staff to protect the viability of your practice. By protecting your practice from legal, legislative and regulatory intrusions, your membership lets you focus on what's really important: your patients. Here are a few examples:

- **MICRA:** CMA and its county societies led the successful fight against the trial lawyers' Proposition 46, in one of the most contentious and high-stakes ballot fights in California history. Had it passed, the ballot measure would have decimated the landmark Medical Injury Compensation Reform Act (MICRA), which has kept access to affordable health care a reality for patients across the state. CMA stalwartly defends this landmark law year after year.
- **DIRECT PAYOR ASSISTANCE:** In addition to advocacy that benefits every physician in California, CMA members also benefit from one-on-one assistance from the practice management experts in CMA's Center for Economic Services (CES). CES has recouped \$29 million from payors on behalf of CMA member physicians in the past 10 years. These monies represent actual physician reimbursements that would have likely gone unpaid without the intervention of the CES team.
- **TOBACCO TAX:** In 2016, and with a one-time \$1 million investment, CMA led a coalition of health care advocates to take on Big Tobacco to drastically expand funding for existing health programs and research into cures for cancer and other illnesses caused by tobacco products. Under CMA's leadership, California voters overwhelmingly approved Proposition 56, which imposed a \$2-per-pack tax hike on tobacco products that will generate over \$1 billion a year dedicated to increasing access to health care by improving provider payments and other crucial health care programs.
- **PHYSICIAN WORKFORCE:** CMA is committed to ensuring California is training enough physicians to meet current and future demand. Expanding funding for graduate medical education to ensure that there are enough residency slots to train physicians in regions where health care services are needed most is one of our top priorities.
- **WORKERS' COMP:** Thanks to a new CMA-sponsored law, California medical groups will save millions in workers' comp premiums. As of July 1, 2018, physician owners of professional corporations will be able to exempt themselves from workers' compensation coverage—regardless of percentage of ownership—resulting in significant premium savings.
